

## Product Highlights

### Comprehensive Management Solution

Easily manage your entire network with the Web GUI or SmartConsole Utility using features like automatic switch discovery, batch operations, and more

### Strong Security

Innovative Safeguard Engine, ACL, and ARP Spoofing Prevention protect your network from malicious attacks and illegal access

### IPv6 Ready Logo Program Approved

IPv6 management and configurations support ensures your network remains protected after the upgrade from IPv4 to IPv6

## DGS-1210 Series

# Gigabit Smart+ Switches with Fibre Uplinks

## Features

### Green Technology

- IEEE 802.3az Energy Efficient Ethernet
- D-Link Green 3.0 power-saving features
  - LED and Port Shutoff
  - Port Standby
  - System Hibernation
  - Cable Length Detection
  - Link Status Detection
  - Time-based PoE (PoE model only)

### Security Features

- Access Control List
- D-Link Safeguard Engine
- Port Security
- ARP Spoofing Prevention
- Smart IP-MAC-Port Binding
- DHCP Server Screening

### Intuitive Management

- IPv4/ IPv6 Dual Stack
- Web GUI (supports 10 languages)
- SmartConsole Utility
- SNMP and RMON
- Simplified CLI through Telnet

The DGS-1210 Series Gigabit Smart+ Switches with Fibre Uplinks is the latest generation of D-Link Gigabit Smart+ Switches with Fibre Uplinks featuring D-Link Green 3.0 technology. The series offers a high level of energy saving and efficiency, as it also complies with the IEEE 802.3az Energy Efficient Ethernet standard. IPv6 Ready Logo Program Approved, support for IPv6 management and configurations ensures your network remains protected after the upgrade from IPv4 to IPv6. By offering multiple management options, the Gigabit Smart+ Switches with Fibre Uplinks allows quick deployment, infrastructure expansion, and seamless function upgrades. Built for small and medium-sized businesses, the DGS-1210 Series Gigabit Smart+ Switches with Fibre Uplinks provide functionality, security, and manageability for a fraction of the standard cost of ownership.

The DGS-1210 Series Gigabit Smart+ Switches with Fibre Uplinks includes a range of high power budget PoE-enabled switches for businesses looking to power VoIP phones, wireless access points or network cameras. The DGS-1210-10P is a 8-port Smart PoE+ Switch that provides 8 PoE-enabled ports that can supply power of up to 30 W each. Whereas the DGS-1210-28P is a Smart PoE+ Switch with a power budget of 187 W, that provides 24 PoE-enabled ports with ports 1-4 supporting up to 30 W of power output following IEEE 802.3at standard. The design allows more flexibility in power allocation for a variety of powered devices with affordable installation costs.

## Easy Management

The D-Link Gigabit Smart+ Switches with Fibre Uplinks series is designed for easy management. All configurations can be made through a Web interface regardless of the host PC's operating system. Furthermore, the web UI contains ten language options to make operations more straightforward. During the first installation, the SmartConsole Utility will automatically discover all D-Link Gigabit Smart+ Switches with Fibre Uplinks in the network, allowing administrators to assign IP addresses and the subnet mask quickly. It also allows simultaneous firmware upgrades to multiple switches, saving a great deal of time. The SmartConsole Utility's important management commands, such as downloading firmware or a configuration file, offer a sophisticated method of batch operations for multiple switches.

## Energy Saving

DGS-1210 Series Gigabit Smart+ Switches with Fibre Uplinks are capable of conserving power without sacrificing operational performance or functionality by using D-Link Green 3.0 technology. Using the Energy Efficient Ethernet standard, the network will automatically decrease the power usage when traffic is low with no setup required. For environments not fully supporting the standard, DGS-1210 Series Gigabit Smart+ Switches with Fibre Uplinks offer advanced power-saving settings including port shutoff and standby, LED shutoff, and system hibernation based on custom scheduling profiles. The profiles can also be applied to the PoE switch so that there is no unnecessary power consumption during off hours. The DGS-1210 Series switches can also detect the length of connected cables to automatically reduce power usage on shorter cable connections.

## Auto Surveillance VLAN and Voice VLAN

The process of setting up IP surveillance and VoIP on a network is automated with the D-Link Smart+ Switches. Auto Surveillance VLAN (ASV) consolidates data and surveillance video transmission through the network, sparing businesses the expense of maintaining dedicated facilities. ASV also protects the quality of real-time video by grouping IP surveillance devices on a single high priority VLAN. This ensures that surveillance video streams will not be affected when ordinary data traffic is at their highest levels. Similarly, the Auto Voice VLAN guarantees clear audio quality and efficient transmission for all voice communication.

## Exclusive Layer 2 Features

Equipped with a complete lineup of L2 features, the DGS-1210 Series switches include IGMP Snooping, Port Mirroring, Spanning Tree, and Link Aggregation Control Protocol (LACP). The IEEE 802.3x Flow Control function allows servers to directly connect to the switch for fast, reliable data transfer. At 2000 Mbps Full Duplex, the Gigabit ports provide high-speed data pipes to servers with minimum data transfer loss. Network maintenance features include Loopback Detection and Cable Diagnostics. Loopback Detection is used to detect loops created by a specific port and automatically shut down the affected port. The Cable Diagnostic feature is designed primarily for administrators and customer service representatives, and can rapidly discover the type of error and determine the cable quality.

## Secure your Network

D-Link's innovative Safeguard Engine protects the switches against traffic flooding caused by virus attacks. The switches also support 802.1X port-based authentication, allowing the network clients to be authenticated through external RADIUS servers. In addition, the Access Control List (ACL) feature enhances network security and protects the network by screening traffic from illegal MAC or IP addresses. ARP Spoofing Prevention prevents malicious intruders from sending massive fake ARP messages through a manipulated source. This protects important data from being stolen by Man-in-the-Middle attacks, and prevents wasting CPU cycles on these packets. For added security, the DHCP Server Screening feature blocks rogue DHCP server packets from user ports to prevent unauthorized IP assignment.

If the worst should happen to your network you need the very best support and fast. Downtime costs your business money. D-Link Assist maximises your uptime by solving technical problems quickly and effectively. Our highly trained technicians are on standby around the clock, ensuring that award-winning support is only a phone call away.

With a choice of three affordable service offerings covering all D-Link business products, you can select the package that suits you best:

### D-Link Assist Gold - for comprehensive 24-hour support

D-Link Assist Gold is perfect for mission-critical environments where maximum uptime is a high priority. It guarantees four hour around-the-clock response. Cover applies 24/7 for every day of the year including holidays.

### D-Link Assist Silver - for prompt same-day assistance

D-Link Assist Silver is designed for 'high availability' businesses that require rapid response within regular working hours. It provides a four hour response service Monday to Friday from 8am to 5pm, excluding holidays.

### D-Link Assist Bronze - for guaranteed response on the next business day

D-Link Assist Bronze is a highly cost-effective support solution for less critical environments. Response is guaranteed within eight business hours Monday to Friday from 8am to 5pm, excluding holidays.

D-Link Assist can be purchased together with any D-Link business product. So whether you're buying switching, wireless, storage, security or IP Surveillance equipment from D-Link, your peace of mind is guaranteed. D-Link Assist also offers installation and configuration services to get your new hardware working quickly and correctly.

Technical Specifications			
General	DGS-1210-20	DGS-1210-28	DGS-1210-52
Port Standards & Functions	IEEE 802.3 10BASE-T Ethernet, IEEE 802.3u 100BASE-TX Fast Ethernet, IEEE 802.3ab 1000BASE-T Gigabit Ethernet, IEEE 802.3x Flow Control for Full-Duplex Mode, Auto-negotiation		
Number of Ports	16 10/100/1000 Mbps, 4 SFPs	24 10/100/1000 Mbps, 4 SFP	48 10/100/1000 Mbps, 4 SFP
Network Cables	UTP Cat. 5, Cat. 5e (100 m max.) EIA/TIA-568 100-ohm STP (100 m max.)		
Full/Half Duplex	Full/half duplex for 10/100 Mbps speeds Full duplex for Gigabit speed		
Media Interface Exchange	Auto or configurable MDI/MDIX		
Performance			
Switching Capacity	40 Gbps	56 Gbps	104 Gbps
Transmission Method	Store-and-forward		
MAC Address Table	16,000 entries per device		
MAC Address Update	Up to 256 static MAC entries Enable/disable auto-learning of MAC addresses		
Maximum 64 bytes Packet Forwarding Rate	29.8 Mpps	41.7 Mpps	77.4 Mpps
Packet Buffer Memory	1 MB per device	1.5 MB per device <sup>6</sup>	3 MB per device <sup>6</sup>
Physical & Environment			
AC Input	100 to 240 VAC 50/60 Hz internal universal power supply		
Maximum Power Consumption	14.06 W	22.45 W <sup>3</sup>	38.27 W <sup>3</sup>
Standby Power Consumption	7.2 W	17.84 W <sup>4</sup>	29.49 W <sup>4</sup>
Fan Quantity	0		Two Smart Fans
Acoustics	0 dB(A)		47.1 dB(A)
Heat Dissipation	47.97 BTU/hr	76.56 BTU/hr <sup>5</sup>	130.58 BTU/hr <sup>5</sup>
Operation Temperature	-5 to 50 °C (23 to 122 °F)		
Storage Temperature	-20 to 70 °C (-4 to 158 °F)		
Operation Humidity	0% to 95% non-condensing		
Storage Humidity	0% to 95% non-condensing		
Dimensions	440 x 140 x 44 mm (17.32 x 5.51 x 1.73 inches) 19" standard rack mounting width, 1U height	440 x 140 x 44 mm (17.32 x 5.51 x 1.73 inches) 19" standard rack mounting width, 1U height	440 x 210 x 44 mm <sup>1</sup> (17.32 x 8.27 x 1.73 inches) 19" standard rack mounting width, 1U height
Weight	2.2 kg (4.85 lbs)	1.67 kg (3.68 lbs) <sup>2</sup>	2.58 kg (5.69 lbs) <sup>2</sup>
Diagnostic LEDs	Power (per device), Link/Activity/Speed (per 10/100/1000 Mbps port), Link/Activity/Speed (per SFP port)		Power (per device), Link/Activity/Speed (per 10/100/1000 Mbps port), Link/Activity/Speed (per SFP port), Fan (per device)
Certifications	FCC Class A, CE Class A, ICES-003 VCCI Class A, C-Tick, BSMI		
Safety	cUL, CE LVD

DEM-331R	1000BASE-LX, Wavelength Tx: 1310 nm, Rx: 1550 nm, single-mode, 40 km	

<sup>1</sup> for H/W C1. For H/W B1: DGS-1210-52 (440mm x 250 mm x 44mm) and DGS-1210-28P (440mm x 250 mm x 44mm)

<sup>2</sup> for H/W C1. For H/W B1: DGS-1210-28 (2.90 kg), DGS-1210-52 (4.08 kg) and DGS-1210-28P (3.736 kg)

<sup>3</sup> for H/W C1. For H/W B1: DGS-1210-28 (16.81 W) and DGS-1210-52 (43.5 W)

<sup>4</sup> for H/W C1. For H/W B1: DGS-1210-28 (6.42 W) and DGS-1210-52 (22.05 W)

<sup>5</sup> for H/W C1. For H/W B1: DGS-1210-28 (57.36 BTU/hr) and DGS-1210-52 (148.42 BTU/hr)

<sup>6</sup> for H/W C1. For H/W B1: DGS-1210-28 (1MB), DGS-1210-52 (1MB) and DGS-1210-28P (1MB)

<sup>7</sup> for H/W C1. For H/W B1: Jumbo Frame up to 10,000 Bytes

<sup>8</sup> for H/W C1 only

<sup>9</sup> for H/W C1. For H/W B1: 4 queues per port

<sup>10</sup> for H/W C1. For H/W B1: Max. 200 rules shared by profiles

<sup>11</sup> for H/W C1. For H/W B1: ARP Packet Inspection: 512 entries

<sup>12</sup> for H/W C1. For H/W B1: IPv4 Packet Inspection: 128 entries

<sup>13</sup> for H/W C1. For H/W B1: 238.4 W (PoE on), 27.4 W (PoE off)

<sup>14</sup> for H/W C1. For H/W B1: 185 W
